Messages from Beyond Earth

It is inherently evident in the nature of TV ads that man is half "ape", half man. The merchants of "Babylon" use **the Word** to sell to the "ape".

Chronology of the Bible
Exodus 1604 B.C.

Seventy "Weeks"

Seventy "Weeks": Seventy "weeks" after Noah's flood, another 70 "weeks" are determined upon "Jerusalem" according to the following interpretation of Dan. 9:24-27:

<u>Year</u>	<u>Week</u>	<u>Time</u>	<u>Dan. 9:24-27</u>
-2425.50	-77½		Noah's flood
-441.00		0	Beginning of time, times and a half
-220.50	-7½		Commandment to restore Jerusalem
0.00		1	Birth of Messiah the prince
1953.00	62½		Beginning of last week
1968.75	62½		Midst of last week
1984.50	63½	4½	Flood that ends Jerusalem

One "Week" = 31.5 Years: "Flood" that ends "Jerusalem" = flood of chores; scorched with great heat = career burnout; chariots shall rage in the streets = rush hour; hippies = people of the Prince; 1984 = year of "big brother"/ "Second Coming"; one "week" = $4410 / (2 \times 70) = 31.5$ years.

Bible Chronology at a Glance: IKings 6:1 states that the children of Israel "were come out of Egypt" 480 years prior to the 4th year of Solomon yet as is evident in the Bible itself 110 years would have to pass before this statement applied: $60 + 130 + 240 + 110 = 540$ years (2034 B.C. – 1494 B.C.). The combined population moved out of Egypt in $2034 - 430 = 1604$ B.C. = date of Exodus. Not until the death of Joshua and the rest of his generation 110 years later (1604 B.C. – 110 = 1494 B.C.) in the promised land did the children of Israel no longer think of themselves as strangers. "Adam" became Adam, the first Modern man, not when he was born but when he was born again at the age of 81 in an existent population. No tampering

with numbers of years or lengths of reign in Bible chronology is required.

has it that the Santorini (Thera) volcanic eruption in 1604 B.C. (date of the Exodus) was the cause of the cloud and the fire.

Table 2 is summed up Acts 13:19-20: "And when he had destroyed seven nations in the land of Chanaan, he divided their land to them by lot (1548 B.C.). And after that he gave unto them judges about the space of four hundred and fifty years, until Samuel the prophet" (1098 B.C.). 1548 – 1098 = 450. Joshua as a young man (Num. 11:28) spied out the land (Num. 14:6) and at the age of 110 died there (Judges 2:8). Moses was detained not by the Egyptian forces but by the Hyksos.

400-Year Affliction: To Abram, not Abraham, "the Lord had said ... get thee out of thy country" (Gen. 12:1). Thus Abraham saw before his name changed a period of affliction that was to last 400 years (Gen. 15:13).

<u>-400</u>		
1604	Exodus/end affliction	<u>Ex. 12:40</u>
<u>-110</u>		
1494	End "time" of sojourn 110 years after Exodus	

Jacob = Israel (Gen. 35:10); Isaac = "Father" of "Israel". Isaac was born when Jacob was 60. The birth of Isaac corresponds with the beginning of the time of the sojourn as is upheld in rabbinic tradition. Affliction of a people = no nationhood status.

Chronologists estimate that the Hyksos occupation of lower Egypt ended in 1567 B.C., 37 years after the Exodus in 1604 B.C. The Hyksos leader who returned to his homeland at the time of departure may have been a king named Apophi I who is thought to have ruled at least 50 years before his expulsion in which case he would have been the pharaoh that Moses had had to contend with. It thus appears that the children of Israel were detained not by the Egyptian forces but by the Hyksos.

Unadjusted lengths of reign are added up separately. Incongruities in the correlation cancel out by the time a 258-year total is reached in 720 B.C. as well as at various dates along the way.

"God's" 7th plague upon the Hyksos' pharaoh may have helped to bring an end to the 2nd intermediate period in Egyptian history (1786-1567 B.C.). The Hyksos' bloodline was cut off from the past. The native Egyptians regained control of their homeland based on the mythology of the time. The chariot may have been the factor that enabled the Hyksos to dominate northern Egypt.

In Table 3; two gaps in the chronological record of Israel have been assumed in areas where the text is confused. The first gap of 11½ years, designated Unknown (11½), may correspond to a period of reign of Zachariah since in I Ki. 15:12 it is said that the sons of Jehu sat on the throne unto the fourth generation.

The second gap of nine years, designated Hoshea II(9), may correspond to the first of two 9-year reigns of Hoshea. Square brackets indicate coregencies. I Ki. 15:33 says that Baasha's reign ended 10 years before Asa's 36th contrary to II Ch. 16:1 possibly due to a clerical error.

Chronology of Daniel

Daniel's 1st Vision (548 BC): Fourth "beast" = industrial revolution; iron teeth are as gears; "get the gears" = made to believe. Daniel is 67.

Daniel's 2nd Vision (546 BC): Two "horns" of ram = believe/make-believe; one "horn" of "he-goat" = made to believe; made up story = touch not the ground. Daniel is 69.

Daniel's 3rd Vision (539 BC): Seventy "weeks". Daniel is 76.

Daniel's 4th Vision (539 BC): Moon of the North = "yin yang"; moon of the South = "hare"; daughter of the king of the South = big "ears". Media/ Persia = old ways; realm of "Grecia" = esoteric = "it's all Greek to me". Daniel is 76.

Daniel's 5th Vision (525 BC): In his 5th and last vision Daniel hears it said that the end would not come for "a time, times and an half"- possibly a cryptically definitive way of saying it'll take as long as it takes and then some (Dan. 12:7). $(1 + 2 + \frac{1}{2}) \times 360 = 1260$; $(1 + 2 + \frac{1}{2}) \times 1260 = 4410$; 360 days = full circle. Daniel is 90.

The Babylonian captivity begins with Nebuchadnezzar's first assault upon Jerusalem in 597 B.C. and ends 70 years later in Darius the Mede's 2nd + 10(?) = 12th year.

In Jer. 25:11-12 it is prophesied that the Jews would serve the king of Babylon 70 years. This period is given the same length in IICh. 36:21, Zech. 1:12 and Dan. 9:2.

Daniel laments the desolation of Jerusalem in his 2nd and 3rd visions but in his 5th and last vision no mention is made of this subject as if to indicate that the captivity had ended.

Table 5 assumes that 10 years of the reign of Darius the Mede are unaccounted for. Zech 1:7-12 has the 70th year of the captivity coincident with the 2nd year of the reign of Darius the Mede. At the time of the 2nd assault upon Jerusalem, Jehoiachin has already been imprisoned 12 years. There is some confusion as to who Darius the Mede was. Dan. 11 is wrongly placed between Dan. 10 and Dan. 12.

A date of 2425.5 B.C. for Noah's flood can be used to attest to the exactness that is inherent in biblical dating with the result that the time of occurrence of the end date in prophecy becomes more firmly fixed to the year A.D. 2000; table 1 assumes that Arphaxad was born 2 years after the flood began thereby allowing all dates B.C. to be moved back one year to make room for a 0-date B.C.

Noah's ark may have landed on Mt. Ararat in the interpretive sense. The Turkish word for Mt. Ararat is Agri Dagh meaning mountain of pain; Methuselah died in the year of the flood though not necessarily in the flood itself; the Pharaoh that Jacob talked to in 1844 B.C. was probably Sesostris II or III or Amenemhet III:

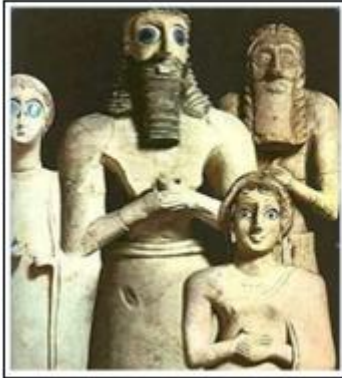

At the time of Noah, a cloud showed up from out of nowhere and rained down a deluge of "God's" "wrath"; today the "cloud" is AI raining down information that does not know how to "defeat" I AM, "God's" "wrath" = "sea" of "good vibes".

Precipitation from this cloud may have filled the basin now known as the Persian Gulf, southern Sumer was inundated; appearance of rainbow = the skies cleared; the Jordan Rift Valley is a branch of the

Great Rift Valley; it is not known if Noah's Ark floated on fresh water or salt water.

"Return Rainbow": The return flood prophesied in Dan. 9:26 may end with the appearance of human nature's rainbow of "colours": black, brown, red, yellow, white (plus possibly two higher degrees of whiteness); the pot of gold at its end is as a cultural melting pot:

*The one God
Is XXX
Explicit is the Word
When swearing
Is forgiven
And divinity is heard.*

Figures excavated at Ur have the appearance of eyes wide open.

The One "God": The Word of the one "God" is explicit, hence "thou shalt have no other gods before me":

Gen. 2:18 - And the LORD God said, It is not good that the man should be alone; I will make him an help meet for him.

Adam: "Lonely" = not getting any:

Gen. 3:17 - And unto Adam he said, Because thou hast hearkened unto the voice of thy wife, and hast eaten of the tree, of which I commanded thee, saying, Thou shalt not eat of it: cursed is the ground for thy sake; in sorrow shalt thou eat of it all the days of thy life;

"Curse": "Curse" = swear at = name-calling:

Rev. 22:3 - And there shall be no more curse: but the throne of God and of the Lamb shall be in it; and his servants shall serve him:

No More "Curse": No more curse = bad words made good; Adam "ribbed" Eve as a way to lighten the mood (Gen. 2:22).

Throne of "God" = freedom/ responsibility, throne of the Lamb = free will/ personal responsibility; strange as it may sound, there too much goodness going on in the world; good is the problem; divine is the solution. Conclusion: We should all be nice to one another but in a more enlightened way.

Plan A vs Plan B: Plan A: the other fork in the African Great Rift Valley, the land area now covered by the waters of the Persian Gulf, should be drained and resettled, an area that is twelve times larger than all of the country of Israel; plan B: the Palestinians and Israelis coexist peacefully given that they each have a legitimate yet albeit different reason to lay claim to the area.

Rev. 3:9 - Behold, I will make them of the synagogue of Satan, which say they are Jews, and are not, but do lie;

The Real "Jewish Problem": "Jew" = "expert"; the real "Jewish problem" is not with the Jews but with those who claim to be "Jews".

Ezek. 12:2 - Son of man, thou dwellest in the midst of a rebellious house, which have eyes to see, and see not; they have ears to hear, and hear not: for they are a rebellious house.

"Rebellious House": "HELIOS"/ "DE/US" = "house"/ "home"; a house is not a home.

Rev. 21:4 - And God shall wipe away all tears from their eyes; and there shall be no more death, neither sorrow, nor crying, neither shall there be any more pain: for the former things are passed away.

H/S: The Hebrew calendar is off 240 years due to a clerical error made in the documenting of the time of the sojourn; "former things passed away" = all calendars brought up to date, "Allah" = all of humanity; "H/S" = tears wiped away from both "eyes".

"Hardener" (Earth) – You are the birds and the bees, the flowers and the trees; the warmth of a bright sunny day. You are everything; you are the world to me.

"Stiffener" (stars) – You are the glittering sparkle stretched across the vastness of the night time sky. You are everything; you are the universe to me.

New Man: H/S = "Eve"/ "Lilith" = hardener/stiffener, glamour/glitz, milk/ honey, refresh/ renew, go far/ climb high, go everywhere/ see everything, lust/ wanderlust, muck/ mire, sunrise/ sunset, keep warm/ stay warm, big apple/ love apple, brain in head/ brain in pants, caring/ adoring, English/ French; yin/yang = twin flames; renewed life = a breath of "fresh air": makes of any man a new man.

Image Dreamt of by Nebuchadnezzar (Dan. 2:41): Ten toes = ten provinces of Canada; Ontario/ Quebec = two big toes; Canada is at the ends of the earth prophetically speaking; "leave Earth" = get off on the right foot; Winnipeg = "eye" in pyramid, Manitoba = keystone province shaped like a keyhole = "peephole"; Winnie the Pooh is a boy bear inspired by a girl bear; cultural diversity = "primordial soup"; the world will change Canada but more so Canada will change the world:

The End is Here: If the words on a sign make no sense, even if understood, then no observation has been made:

Deut. 3:11 - For only Og king of Bashan remained of the remnant of giants; behold, his bedstead was a bedstead of iron; ... nine cubits was the length thereof, and four cubits the breadth of it, after the cubit of a man.

Josh. 13:12 - All the kingdom of Og in Bashan, which reigned in Ashtaroth and in Edrel, who remained of the remnant of the giants: for these did Moses smite, and cast them out.

Og, king of Bashan, lived from the time of Noah's flood to the time of the Canaanite conquest: 2425.5 B.C. - 1560 B.C. = 865.5 years.

-- 1564-1557(?) Sun Stood Still

Josh. 10:13 - *And the sun stood still, and the moon stayed, until the people had avenged themselves upon their enemies. Is not this written in the Book of Jasher? So the sun stood still in the midst of*

heaven, and hastened not to go down about a whole day.

-- 712 B.C. = Hezekiah's 14th year (2Ki. 20.6)

2Ki. 2:11 - And Isaiah the prophet cried unto the Lord: and he brought the shadow ten degrees backward, by which it had gone down in the dial of Ahaz.

Note on Disturbances in the Earth's Motion: Two instances are mentioned in the Bible and should be accounted for when turning back the clock; after about a whole day, the sun did set, so "sun stood still" could mean "time stood still".

-- Inundation = sinking of Atlantis – date unknown.

-- Deluge – Noah's flood – 2425.5 B.C.

-- Immersion – New Jerusalem descending – 1984.5 A.D.

Sumerian Dynastic King List: Eight "kings" listed in the Sumerian dynastic king list purportedly ruled 241,200 years from the time the kingship was lowered from heaven to the time when "the Flood" swept over the land and once again the kingship was lowered from heaven; Jerusalem is as the city of David the shepherd king. In the story of Cain and Abel the farmer killed the shepherd; three floods = three "waterfalls": inundation, deluge, immersion.

Note on Building the Pyramids: Ed Leedskalnin used a block and tackle to build the Coral Castle in Florida suggesting that the stones were made lighter but not totally weightless; a labour force the size of a small army would have been required to build the Egyptian pyramids in a similar way; the pyramids were built around the time of Noah's flood, 2425.5 B.C; arrangement of π-shapes = "Stonehenge".

Without meaning, Earth's state of knowledge is as a cloud of confusion called Nimbus on top of the accumulation of which those who harp on one thing are as angels in heaven who dwell on a subject tiresomely; that the content of this cloud should suddenly give up its secrets is retrospective of the cause of the original flood - the appearance of a rainbow at that time signifying that a sense of order had been restored in the heavens.

End Chronology of the Bible

RABBINIC TRADITION:

Regarding the number of years that the Hebrews were in Egypt and when they were enslaved in Egypt, rabbinical interpretations claim that the Hebrews psychologically and then physically spent either 400 years or 430 years as slaves in Egypt of which the final 210 years were spent in actual physical slavery in Egypt. The figure of 430 years is calculated from the time G-d promised Abraham (also: Avram) the land of Canaan and G-ds' foretelling to Abraham of the Hebrews' slavery in Egypt, thus psychologically 'enslaving' Abraham and the Hebrews in Egypt in their minds from that point in time forward with the knowledge that they would be slaves in Egypt, to the time of Abraham's son Isaac's birth (30 years) plus from the time of Isaac's birth to the exodus from Egypt (400 years) which equals 430 years.

Another rabbinical interpretation claims that based on the Passover Haggadah readings that mention "400 years" of slavery in Egypt, the 400 years started from the birth date of Jacob's father, Isaac - the same Isaac who was the son of Abraham. It claims that since the Torah states that Isaac was 60 years of age when Jacob was born, and Jacob was 130 years of age when he went to Egypt, then the period of time the Hebrews spent in Egypt was 210 years (400 years minus the total of 60 + 130 = 210 years), and that the Hebrews spent the final 86 years in Egypt as slaves.

Two Torahs = Dos and Dents = freedom / responsibility

Excerpt from <http://www.donmeh-west.com/2torahs.shtml>:

Torah D'Atziluth. The "first" Torah, (the "Torah of the Emanations") was written directly by the "finger of God" and is described in the passage of Scripture:

"When [Yahweh] had finished speaking with Moses on the mountain of Sinai, he gave him the two tablets of the Testimony, tablets of stone inscribed by the finger of God." (Exodus 31:18)

These were the "Tablets of the Testimony" that Moses destroyed when he descended from Mt. Sinai to find the Israelites, and the Egyptian "mixed multitude" with them, engaged in the Sin of the Golden Calf: Because they

were written "by the finger of God" they are said to have come from the Kabbalistic realm of Atziluth "supreme emanations" and were intended for the Children of Israel -- now cleansed of the sin of Adam by their refinement in "the iron furnace of Egypt" -- as a manual, so to speak, for their re-entry into Eden -- which is to say, the Kingdom of God.

Torah D'Beriah. The "second" Torah (the "Torah of Re-Making") was given as a replacement for the first, which God deemed Israel not fully prepared for:

"Moses made his way back down the mountain with the two tablets of the Testimony in his hands, tablets inscribed on the front and on the back. These tablets were the work of God, and the writing on them was God's writing As he approached the camp and saw the calf and the groups [of Israelites and the Egyptian 'Mixed Multitude'] dancing, Moses' anger blazed. He threw down the tablets he was holding and broke them at the foot of the mountain." (Exodus 32:15)

However, after the Israelites repented and Moses prayed, he was given a second revelation from God, but this one written by his own hand:

"Yahweh said to Moses, '[You] put these words in writing, for they are the terms of the covenant I am making with you and with Israel.' [Moses] stayed there with Yahweh for forty days and forty nights, eating and drinking nothing. He [Moses] inscribed on the tablets the words of the covenant." (Exodus 34:27)

The principle difference (as one can find from a study of the scriptures attendant on each) between the first and second Torahs is that sexual prohibitions (including those against incest, male homosexuality, etc.) were not included in the first, but added to the second -- this, of course, because the Sin of the Golden Calf was sexual as well as idolatrous. Some scholars, such as Columbia University's Morton Smith, speculate indirectly that this was the reason Jesus, according to the early "Libertine" (or "Liberated") Christians, not only permitted but actually mandated the performance of those sexual activities (including male homosexuality) that had been forbidden in the Old Testament. (For resources on this, see those pages under "libertines" in Morton Smith's book *Clement of Alexandria and a Secret Gospel of Mark*, Harvard University Press, 1973.).

Jewish Oral Scripture tells us that *Gan Ayden* (the Garden of Eden) was populated by far more humanity than only Adam and Eve, as we are accustomed to thinking. <http://www.donmeh-west.com/2torahs.shtml>.

Now the Sumerian word for "rib" is "ti.," but the same word also means "to make live." So the healing deity who worked on Enki's rib was called "Nin-ti" and, in a nice play on words, became both the "lady of the rib" and the "lady who makes live." This Sumerian pun didn't translate into Hebrew, in which the words for "rib" and "to make live" are quite different. But the rib itself went into the Biblical account and as "Eve" came to symbolize the "mother of all living." <http://www.ldolphin.org/eden/>.

The Dybbuk of the Holy Apple Field (1997)

Review Summary

Loosely based on a 1914 play by S. Ansky, this elaborate, ambitious, and unnerving fantasy from Israeli writer-director Yossi Somer juxtaposes a Romeo and Juliet romantic tragedy with a modernized tale of a "Debunk," a mischievous spirit from Yiddish folklore capable of releasing repressed desires in innocent young girls. The story focuses on the ill-fated romance between Hanan (Yehzekel Lazarov) and Lea (Ayelet Z'urer) who, though promised for marriage by their families, are torn apart by the rift between their fathers' social and religious backgrounds. After attempts to win the favor of Lea's Orthodox father, Hanan joins a yeshiva and begins an intensive study of the enigmatic and complex mysticism of the Kabbalah, leading to surreal visions revealing his true spiritual link to Lea, his soulmate. Spurred by this newfound wisdom, Hanan renews his passionate pursuit of Lea... and not even death can prevent him from fulfilling his destiny. Equal parts supernatural horror, classic romance, and political allegory, this one-of-a-kind film is certain to provoke strong reactions from viewers, who will either be overwhelmed by its shocking imagery or mesmerized by its intricate, multi-layered storytelling. ~ Cavett Binion, All Movie Guide

Exactly how much "zero-point energy" resides in the vacuum is unknown. Some cosmologists have speculated that at the beginning of the universe, when conditions everywhere were more like those inside a black hole, vacuum energy was high and may have even triggered the big bang. Today the energy level should be lower. But to a few optimists, a rich supply still awaits if only we knew how to tap into it. These maverick proponents have postulated that the zero-point energy could explain "cold fusion," inertia and other phenomena and might someday serve as pan of a "negative mass" system for propelling spacecraft. In an interview taped for PBS's Scientific American Frontiers, which aired in November, Harold E. Puthoff, the director of the Institute for Advanced Studies, observed: "For the chauvinists in the field like ourselves, we think the 21st century could be the zero-point-energy age." <http://www.padrak.com/ine/ZPESCIAM.html>.

The word "calculus" comes from "rock", and also means a stone formed in a body.

"Charles gave the conquered Saxons a choice between baptism and death, and had 4500 Saxon rebels beheaded in one day; after which he proceeded to Thionville to celebrate the nativity of Christ."

"Out of this intimate co-operation of Church and state came one of the most brilliant ideas in the history of statesmanship: the transformation of Charlemagne's realm into a *Holy Roman Empire* that should have behind it all the prestige, sanctity, and stability of both Imperial and papal Rome."

"Above all, the coronation (800 A.D.) established the Holy Roman Empire in fact, though not in theory."

Charlemagne and his advisers conceived of his new authority as a revival of the old imperial power; only with Otto I was the distinctively new character of the regime recognized; and it became "holy" only when Frederick Barbarossa introduced the word sacrum into his title in 1155. All in all,

despite its threat to the liberty of the mind and the citizen, the Holy Roman Empire was a noble conception, a dream of security and peace, order and civilization restored in a world heroically won from barbarism, violence, and ignorance. Imperial formalities now hedged in the Emperor on occasions of state.

"It was in response to this setback that Charlemagne allegedly at the Blood court of Verden ordered the beheading of 4,500 Saxons who had been caught practising paganism after converting to Christianity, while Widukind escaped to Denmark again. Upon this Blutgericht, modern (i.e. archaeological) research has cast some doubt, as no archeological evidence of such a massacre has been found and the original source may mistakenly have said "beheading" (decollabat) when it should say "exiling" (delocabat). The massacre led to two straight years of constant warfare (783-785), with Charlemagne wintering in central Saxony, at Minden. In 783, battles in Saxony saw Saxon women throw themselves bare breasted into battle. One of them was Fastrada, daughter of a Saxon count, who, in 784, became Charlemagne's fourth wife. Gradually, the Franks gained the upper hand. The turning point came in 785, when Widukind had himself baptized and swore fealty to Charlemagne. It was with the conclusion of this war that Charlemagne can have claimed to have conquered Saxony, the land had peace for the next seven years, though revolts continued sporadically until 804."

Acts 26

[24] And as he thus spake for himself, Festus said with a loud voice, Paul, thou art beside thyself; much learning doth make thee mad.

[25] But he said, I am not mad, most noble Festus; but speak forth the words of truth and soberness.

[26] For the king knoweth of these things, before whom also I speak freely: for I am persuaded that none of these things are hidden from him; for this thing was not done in a corner.

[27] King Agrippa, believest thou the prophets? I know that thou believest.

[28] Then Agrippa said unto Paul, Almost thou persuadest me to be a Christian.

[29] And Paul said, I would to God, that not only thou, but also all that hear me this day, were both almost, and altogether such as I am, except these bonds.

[30] And when he had thus spoken, the king rose up, and the governor, and Bernice, and they that sat with them:

[31] And when they were gone aside, they talked between themselves, saying, This man doeth nothing worthy of death or of bonds.

[32] Then said Agrippa unto Festus, This man might have been set at liberty, if he had not appealed unto Caesar.

Curriculum Vitae - Robert Hoffman / Western Canada

- ◆ Science Background – B.Sc. (physics) 1967; B.Sc. EES (Electrical Engineering Science – Dean's Honours) 1970. Both degrees obtained from the University of Manitoba, Winnipeg,

Manitoba, Canada.

- ◆ Metaphysics Background – became active in the Bartonian Metaphysical Society in 1971 while working as an engineer at the Manitoba Telephone System.
- ◆ What is Metaphysics? – science made "personal".
- ◆ Other Interests – writing music; writing poetry; tutoring mathematics, spending time at the lake.
- ◆ Christian Affiliation – Anglican.

The ancestor I am descended from was orphaned on a ship coming to America in the 1800's, he was adopted by a Jewish family in Philadelphia, Pennsylvania (or maybe Pittsburgh); his last name was changed from MORE to HOFFMAN; all of this is hearsay, there was no inheritance; my Mother's parents were both born in the Ukraine and came to Canada in their youth, her maiden name was KLYMKIW; my Father's background was English, Irish and Russian.

Down BMS Memory Lane by R. A. Hoffman

I graduated from science in 1967, and from engineering in 1970. In 1971, a fellow engineer at the Manitoba Telephone System where I worked came across a listing in the yellow pages for the **BMS - Bartonian Metaphysical Society**. He and I attended an introductory lecture given by the founder Winifred G. Barton. I took the courses thinking that esoteric philosophy might be a way to make sense of relativity. I was 25, he was 23.

In 1974, while sitting at my desk at MTS wondering what else do I know after having become stuck in metaphysics, it occurred to me that two dates in Earth's early history begin with the numeral '6', 6 billion and 600 million; the first date I remembered from an astronomy textbook I had had in science and the second in my own home atlas. I wondered if 6000, the number of years roughly since the time of Adam and Eve, would be the last number in a progression that sums up evolution. At the main city library, I found reference articles in the Encyclopedia Britannica written by or quoting Richard Leakey that immediately filled in the gap. In 1975, I quit work after having been with the MTS for exactly five years, and started writing a book while expecting to remain active in metaphysics.

Winifred Grace Barton (1923-2016), came to Canada from London, England in 1947, the year after I was born; in 1967, she founded the **BMS** later renamed **I*AM - Institute of Applied Metaphysics**, the Winnipeg Unit had, in the 1970's, about 100 active members.

Arcturus II:

One day in the mid 1970's, a man came to the house at 257½ Young St. in Winnipeg saying his name was Arcturus II and that he came from beyond the sun.

He claimed that "Arc" means big, that "-turus" means police and that his father was Arcturus I. His mother was a French woman who became acquainted with his father when his father, a war-time pilot, crash-landed on the shores of France during WWI.

As he came in he asked me what I did for a living. I replied I was an engineer. His response was that an alien-built structure existed on the Martian moon Phobos and that NASA would be more likely to believe his message if it came from someone professional.

He then went on to say that God was Helios, that he wanted to write a book like the Kabbalah and that he was looking for someone to help him write it. Later he guardedly gave me his phone number saying that there were certain elements in society that made him very wary, adding that Phobos and Deimos mean fear and dread. At the time of his visit he said he was 54 years old. Leery of the sound of alarm in his voice, I never did call.

When he talked I felt as though I were looking into a tunnel but otherwise we conversed normally. At one point I suggested he must have lived quite a life. He seemed pleased at the ordinariness of my observation. Years later it occurred to me that because "-turus" means police he may have been what George Orwell would have called the thought-police. I wonder if my visitor would have realized this himself.

I was not alone in the house at the time. A friend of mine named Sheila and her son were on their way upstairs just as he entered the house. He walked with a cane. When I saw that he limped, he waved his hand saying pay no mind - not that I did. We talked at the kitchen table. I was 28 years old.

Years later Voyager I or II did take a look at Phobos. I think the Russians did too. The agencies involved claimed that nothing was found. These days there's widespread interest in taking a closer look

at a face-shaped structure that exists on the surface of Mars itself I believe.

Arcturus is 35.5 light years away from Earth and appears as a bright star in a constellation Bootes, the herdsman. The constellation is also called the plowman and bear driver. Arcturus is on a line connecting the end star in the handle in the Little Dipper (north star) with the end star in the handle of the Big Dipper and the three stars are roughly equally separated.

Note: Richard Green later told me that Dr. Barton was very much interested in hearing this story. This is where I got the name "HELIOS" from and the word phrase "beyond the sun".

Excerpts from Dr. Barton's Letters:

Before the Internet (1992-1994):

Feb. '92

-- PS: Dear Robert: Every day I am coming to realize more and more the extraordinary relationship you had with I AM.

-- I can clearly see how the material world could end in a quick "BIG BANG" without a single drop of blood being shed or a shot being fired.

-- The returning echo of our Cosmic Heritage is best understood when we use Robert as an Exempli to open the Treasure Vaults of Levi in our cargo hold. Feb. '92.

24.3.92

-- We have received "Time's End" - it is beautiful in every respect. It is your "Crystal" We read it at our last night's meeting. We are having serious people come from long distances to check in. They feel the Second Coming of the Light on the airwaves. There are nightly meetings going on in back rooms around the nation and no doubt the whole world. Yours is a UNIQUE VISION - freeing the collective Master Mind is what we are all about. 24.3.92.

10.5.92

-- As usual your last letter was RIGHT ON! The old system is spent and we are well into the New Earth Era. - PS: I like the way you send multiple copies. It makes for reconnections with my people of the 13th tribe. 10.5.92

5.5.93

-- You never fail to blow my mind regarding our commonality of spiritual input. I really appreciate your fine mind which never fails to throw light on each current situation. 5.5.93

Excerpts from Dr. Barton's Letters – cont'd

23.2.94

-- Cooking on all burners simultaneously is a great experience. No previous now was ever like this... Robert put the word on the I*AM. Today he has re-christened it by changing the hot sun to a cool star asterisk. A smooth point well taken. Sooner or later all heat must change to light.

-- Robert and I have shared a mutual respect for each other's principle since 1973. His picture is in the time capsule registered on page 57 of the Book of Life. There is no personal sympathy registered in our relationship, rather a crisp cool tingle of common eye on target and pleasure in all advances shared.

-- I really appreciate the clarity of your communications and the part you have played in the Cosmic Changeover. Among other things you helped put me in touch with Janet. I was surprised to find she lives very close to me in Belleville. She phoned me and we had coffee together and a long conversation. 23.2.94

5.3.94

-- Robert regarding your pamphlet: It is like a beam from a watchtower. I am sending your pamphlet to various members of our "Light Community" all in the hopes of an Easter Resurrection. 5.3.94

6.3.94

-- You have proposed my game be called "GOD" - That's God thinking Robert!" 6.3.94

22.5.94

-- It is happening Robert. People are coming into full understanding of the whole divine plan that was laid out from before the dawn of human history.

Excerpts from Dr. Barton's Letters – cont'd

-- Throughout the month of May 1994 incredible things have been happening. They can best be described as PURE MAGIC. --So we are moving from theory to practical application at last! 22.5.94

Meeting at Airport in Winnipeg: In 1994 during a stopover between planes as she was on her way back to Ottawa from Saskatchewan, Dr. Barton met me at the airport in Winnipeg; I told her that 666 had changed to **XXX**.

Dec. 7/94

-- It was great seeing you. Here is an update on the Regina situation. Dec. 7/94.

Letter from Adrienne: I would like you to know I appreciate your incredible understanding and input. It makes complete sense and is so clear. I reread your biblical explanations and know they're right on. It makes me want to read the Bible even more. March 9/94.

Jan. 4/95

-- Robert: Thank you for your usual, most informative letter. You always hit the crucial point of the matter. Like naming I*AM in the first place. You are 100% right about the icon I*AM being written with the star rather than the sun.

-- 1995 is the Year of the COSMIC CHANGEOVER. Jan. 4/95

This is the first time that I have seen your scroll unrolled in its full and meticulous blossoming - as reflected in the satisfaction on you most recent bio pic. and rightly so. Your unique systematic thought process and mental slant is like no other on the web. Interesting that you switched BMS to I AM - in that this was a key move in the Cosmic Plot in us and now you have "redeemed" it.... :-).

It has been a long Star Trek. This is the first time that I have fully understood the relationship between your formal and spiritual education and the summit task that lay ahead of us. I had no idea you wrote music ... but it figures. Music and maths are in sync. :-D

Your web page is like the completion of the loop we began in the ? late 60's early 70's. Your attention has never deviated from its original intent, and you have gone from "Alpha to Omega" in one fell swoop... Takes me back to Winnipeg days and wondering if Donna Freeman is on the net. Sometimes think of how she is doing these days... it is as if "time" has passed un noticed in The Upper Kingdom.

Straight Plumblineline - straight Spirit Level - vertical and horizontal - which form the BIG "T" - for TRUTH - Our Corporate Core Signature - the Truth will set all men free.

You may know that I am writing a book on Famous Metaphysicians - and, with your permission would be delighted to include your wonderful "full blown rose of consciousness" with a bit of Young St. background - the Original Creation of this Universe was achieved by only one tool - one thought poured into one consciousness and we are all part of it.

It feels so good to meet at this altitude - and it is happening with many by caring and sharing... I will send it all around to family etc. - have you sent it to 13th Tribe list and GFLF ?

RH: How did you come up with PSI EGO ID diagram?

WB: The NDE of 1927 and subsequent astral projections led me to question

"Are we ET's having a human experience or is it vice versa?"

The diagram was done in Winnipeg in 1962 during the "Deer Lodge" period. I was dealing daily with patients who were about to pass on and read and sometimes wrote mail for them and shared intimate conversations as they looked back on the circumstances of their earth lives. Many dreamed of loved ones waiting to greet them. RA KAHN co ordinated these "Life Classrooms" with the txt of his evening messages. The infant psyche, PSI, was vulnerable to external circumstances. EGO was both its drive shaft and maternal protector element. This relationship continued until the ID, or mature identity strength was fully developed. (ie: For the record, a Hospital has a "Hierarchal Pyramid" based on identity strength, with doctors on the top of the list. A favourable financial background, with Ego Drive to professional status has caused this situation.) Flashbacks to my own youth in school reflected multiple images which fit into this imagery. Egocentricity and Ethnocentricity had a lot in common. Membership in groups, Masons for example, indicated that ID strength could be gained this way.

In Metaphysics we call this part of our journey the A-Y as it helps to be part of a group, such as we had in the Coe Hill decade of experience. One might think of this as many straws bound in a bundle so that the weaker and the stronger are mixed.

Then comes the individual and personal Identity Test, the Y-Z solo flight of morphogenetic transformation. In the caterpillar - butterfly morph one must die for the other to be born.

For the record, on the megascale, this illustration applies to religions, nations, planetary bodies. Prior to gaining id strength corporate bodies vie for supremacy and engage in an cover up of erroneous

In these end times, and thanks to the computer, things hidden are being revealed. Truth is Light penetrating the cave of programmed domination in which our parents lived.

The move from Egocentricity through Eccentricity to Theocentricity is our August agenda.

Hope this answers your question. Love Winifred

Our joy knew no bounds, for it had long been reiterated by our teachers that the Atlantean Academy of Metaphysics and Institute of Technology, together housed the intelligentsia of the known world. Before graduating from the former, a student would have advanced into the realms of understanding where the aura could be separated from the tissue during deepest meditation, to roam the Universe, or wander to every corner of the earth. My Dear Lord Arcturus: (This is the way she talks)

I far prefer your Arcturian Engineering Printouts. You speak no wishy washy - more like electric light clicks - voltage increase in batteries...

It was through our Smith Street connection that I watched time running backwards in one of the most paranormal events along the 'way of the wolf.' Kay Hall and Syd Burletoff were my companions. Turn clock forward - turn clock back - the RED QUEEN HYPOTHESIS.. simple and straightforward. The completion of their number one lesson - rendezvous - same place - same time whenever possible - tune in the INNER RADIO to gain Invisible high vibrational ENERGIES - coming clean with yourself the Inner Showering - or Internal Baptism - gleaned with full compassionate understanding. "Take up your cross and follow me ..." thus the BUTTERFLY EMERGES from the dead and transparent Cosmic Cocoon.

It is sometimes difficult to understand 4th generation Arcturian - superior mindspace - then intelligent direct when we are using our LIVE PLANET MINDSPACE - like spore hatching in the spring air . UNIFIED FIELD TALK. ONE UNIVERSAL MINDSPACE

1. GEOMETRICALLY speaking my MU-MUM - Emily Georgina Morris was firstly a square.

SQUARE : Honest - hardworking - no credit purchases - self sufficient - kind to animals - used her natural intelligence to maximise our family life style. Steered our home-ship with thrift - masterful experiential precision engineering skills gained in life experience..

Mum was likewise WELL ROUNDED and crafty. She had a sewing machine - made rugs with old rags - simple home grown diet chatted with the neighbours who shared emotional moments over the garden wall. This in a non literate world - of a somewhat Islamic shading - when Females mostly stayed at home 'nesting' younger siblings and for a world yet to be ...

As it is writ ... in the 712127 contract - namely -

'THE HAND THAT ROCKS THE CRADLE RULES THE WORLD....'
SO MOTE IT BE!

2. ENERGY EFFICIENCY: Waste not want not. Early to bed, early to rise. Minding your own business is a full time occupation. Tea and natural herbal remedies were the only stimulant Mum ever used. Indelible wisdom for a happy long life.

3. THIRST for knowledge. Great expectations: Before going to school MUM implanted her appetite ARROW HEAD of desire for my future. Much later life acted like a dart board, to destiny once we hit the Bullseye on one straight shot. This was attained on 5/5/2010.

4. PUDDING: The proof of the pudding is on the eating. I AM HER PUDDING - EAT ME! WIN A PRICELE\$\$ FORTUNE on the www - - GLOBAL ABUNDANCE - AND ITS ALL FREE !

5. JUDGEMENT: In appreciating Mom I must reconsider my childish biased JUDGEMENT.

Mum raised me to believe that my Dad was half man half god. Then, when I went to Holy Trinity Church school for education, it soon became obvious that Mum was biased, sweet soul. However, being polite, I never raised the subject, just felt a little touch of religious intellectual superiority after becoming biblically literate...

YINKS!!!!!!!!!!!!!!

This infant on the threshold of infinity seems to have until the sunset of June 20, 2010, to smash this

EGO REDUCTION VALVE and replace it with a TRUTH CYLINDER.

Gotta get back under the hood. TELKEKINETIC POWER - the way it was in infancy before I went to schule...

Grandma Morris was stone deaf. Telepathy and body language spoke volumes attitudes towards life - Soil - Worms - Compost - Plants - Insects - Birds - Animals - People .. with KIND MIND.

Excerpts from Dr. Barton's Letters – cont'd

Blue Roses blossoming; Uncles dream come true. Sitting by my window is a pot of BLUE ROSES. My Dad's brother spent his horticultural lifetime trying birth a blue rose. Today in a totally telekinetic command in my head, which I followed to the end of the thought, I now have a bouquet of countless thousands of blue roses by my hermitage window... and feel the electrical connect in every molecule - see a holographic Albert Einstein waving... from the black light cinemascope - dark energy - dark matter - the THEATRE OF NUIT - ends....

How utterly appropriate; Albert got us into this equation - thus solar logic insists he get us out. Multi 3.9 Credits due from Royal 1.3 Karmic Bank.

Ernest emigrated to Canada at 14 when farmers needed a labour force. He later joined the Hudson's Bay Trading Company and lived at God's Lake in Northern Manitoba. In his travels for HBC he often lived with native people and learned to speak Cree.

We met in Dumfries, Scotland, in the summer of 1942. He was a Sgt.in the Canadian Army - I was in the British A.T.S. It was a casual acquaintance and we did not exchange addresses. We met in the mess we both married to other people at the time so no romantic interest in one another. He was 15 years my senior.

My husband was a navigator in the RAF. He died when his plane was shot down on January 19, 1945. In the summer of 1945, when I was eating lunch in Hyde Park, close to where I worked in London, who should come along but Ernest, who was on leave.

Excerpts from Dr. Barton's Letters – cont'd

Millions of people walk through this part so this was a very rare coincidence. We talked and it transpired that his wife had written to say their marriage was ended and she was living with another man. This was when fate cut in our romantic relationship began.

I came to Canada on a Constellation aircraft and landed in Winnipeg, Manitoba, where Ernest was living, on March 3, 1947. We were married on April 23, 1947. Rick was born on January 12, 1948, David March 11, 1949, Chuck on November 13, 1952 and Jim on April 26, 1954.

We started a small 10-acre farm in Steinback, Manitoba: Then bought a section of land in La Broquerie with 7 horses, cows, pigs, chickens etc., There was no running water or electricity on this farm and we used horse transportation to go 11 miles into the village. The heavy work was too much for Ernest and he got sick so we had to sell the farm and we moved back into the city of Winnipeg in the district of St. James. Here I started work with DVA in the Civil Service, at Deer Lodge Hospital. From here we moved to 3045 Otterson Drive, Ottawa, Ontario due to wgb getting a Government of Canada promotion.

Dear Robert: Your masterpiece is well accepted - though not yet fully digested. It is truly writ that every man and woman is a star - which brings us full circle to when a knock came on your door - and it was ARCTURUS - THE ORANGE GIANT - "The bear guardian" (vs. the bull rush)

We wrote letters in the days before becoming computerized - since then I have kept all of our correspondence which are key threads in the BMS patchwork quilt which tells an amazing story - of the days of Kay Hall - Syd Burletoff - how we met Queen Victoria and the clocks ran backwards... and with this epistle we have come full circle.

It was neat how RH drove BMS underground to become THE INVISIBLE HAND - a move which allowed us to get the job done, live to tell the tale, and bring the 13th Tribe along with us - on Friday the 13th yet!.

Excerpts from Dr. Barton's Letters – cont'd

Heartiest congratulations on being the door opener to the new beginning ... dear faithful & true one - of spiritual humility - most especially on this day when the world is celebrating the downfall of the epic item of human arrogance - the sinking of the TITANIC

End Excerpts from Dr. Barton's Letters

What Dr. Barton Said:

Dr. Barton started off with three ideas: apply metaphysics; Psi-Ego-Id diagram and #1 lesson; she wrote about twenty books; these are some of the things she said:

- Learn, baby, learn.
- stern repetition of facts.
- training ground for giants.
- The greater the Ego, the less the ability to reason or see reason.
- Do #1 lesson.
- So mote it be.
- Snake bites own tail.
- Dot the "i's" and cross the "t's".
- Not one jot or tittle.
- wish upon a star, Disney magic.
- Turn light into weight into speed.
- Fill your dips.
- To love is to care is to act.
- Bird need two wings to fly.
- You have to yearn for it.
- actualize.
- glorify.
- Psi missing.
- eyes on the stars, feet on the ground.
- We stood in the midst of truth yet could not comprehend it.
- Heaven on Earth, why not now?
- Who will ride the dark horse?
- Operation mind snap.
- Don't think. (Thinking ends when rethinking begins.)
- What the man wants, the man gets.

"Each individual will seek personal freedom from the bondage of his inner fears and rigid programming. Then, of his own free will, he can become a lion in the fight to change the present orientation of human thought -- which is the goal of modern metaphysics." Kephara, ch. 05. Lion = think for oneself, lamb = anger management.

Some sayings of my own: "I'd rather be brave than smart"; "if you want something done right away do it yourself"; "action is only as good as is the information acted upon"; "the smaller the idea, the bigger the book"; why start if does not intend to go all the way; metaphysics is a deep subject that for me came out of rock music.

What Dr. Barton Said – cont'd

At the airport in Winnipeg in 1994 (year -6), I had the opportunity to discuss with Dr. Barton the idea that 666 switches to **XXX**.

Einstein was born March 14 = π day; $\pi^3 = 31.00$; Dr. Barton died at the age of 93 = $3\pi^3$; I once said to Dr. Barton, the only way I can explain to you what I'm doing is to do it and then show it to you.

"switch" = "crazy", "flip" = "mad"; "rock bottom" = "glorify"; "Dr." = "spin doctor"; Winnipeg = Winnie-the-Pooh-peg; "pooh" = divine.

EOC = end of course = no expectations, no obligations, no complications; close, personal, familiar and accessible.

spaghettification = little I am / big I AM stretched apart

Personality = practise, Psyche = principle; Dr. Barton's Psi-Ego-Id diagram gave birth to Psyche = the sexual personality.

"God" is invisible, "God" = everything therefore everything is invisible.

Good is "bad" in the sense that divine is "better". This requires a whole new way of intellectualizing everything. This is what "Dr." Barton taught.

Unrolling the BMS Scroll – by Adrienne Smith

3045 Otterson Drive. We walked in. Immediately I felt a most calming atmosphere, a lightness, presence... I could certainly notice the change. I wanted to stay in that vibe.

The basement was full of people. It was not a lecture on E.S.P but the Beginner's Course in Metaphysics. Speaking was a lady named Winifred G. Barton. That night totally changed my life. I could hardly believe what I was hearing. It was what I was looking for. I was home.

And so began my real Inner Journey into my own Universe. It worked. I began to development my own Inner Power. For the first time in my life I was happy. I was 33 years old; this was in 1964. I was deep down inside happy, everyone noticed it. I was asked what I was doing. I tried to tell a bit of what I had learnt. I quickly stopped it. I was neither accepted nor believed.

That was fine.

I, (Adrienne Smith) joined The B.M.S. (The Bartonian Metaphysical Society) in 1964. I know I was led, guided to do so.

Meetings were held at the residence of Dr. Winifred G. Barton, & Ernest W. Barton, 3045 Otterson Drive, Ottawa, Ontario, Canada.

I took the Beginners Course, then called Psyche & Personality Development. Later on it was changed to The Ultimate You Course.

In our classes we were taught to develop our Psyches and Personalities using specific techniques. New mind worlds were opened up to me, (everyone). Very early in the course, I met my Guide, (Lesson #6, entitled Know Your Guide).

I took all the courses numerous times. The second Course was called Esoteric Philosophy, studying/learning about all the major religions of the world, gleaning the essences from them. This was followed by Applied Metaphysics, a more senior course. Later came Post Applied Metaphysics.

A book could be written about everything I experienced. I was in Metaphysics for life. Experiences were/are never-ending.

I worked in the Government during the day at The Dept. of Energy, Mines & Resources. I had two children living with me. My first husband had died on February 4, 1972. He was in his 37th year. His name was Clayton Burrows. My children's names were/are Elaine and Darcy Burrows. Elaine was 13 years old when Clayton died. Darcy 11. Both of them eventually wound up in Metaphysics.

BMS grew. More space was needed - which was rented at 199 Queen St., downtown Ottawa. More people coming in.

Eventually BMS bought a house at 495 Lyon Street, Ottawa, Ontario. By this time there was a large French Unit. People driving in from Montreal and environs to take courses.

I served as Ottawa Unit President for 6 years, (English Unit). I also served as Secretary of the B.M.S., while living at 495 Lyon Street, for a number of years.

BMS grew by leaps and bounds. A church was purchased at 250A Lyon Street; many an esoteric "baby", was born there. B.M.S. Courses were also taught at 250A. Dances were held. Lots of (red) energetics and merriment took place there.

Students were invited to take Teacher Training Courses if they were interested in teaching Metaphysics; more branching out. Pembroke, Kemptville, Peterborough, Montreal.

Any teacher of metaphysics knows they are always the first student. One of our slogans was "Learn Baby Learn", and learn we all did.

Property was bought at Nominingue, Quebec. Nominingue was what I called our Teaching Dome. People came from all over the world to take a 3-month course in Metaphysics, then return to their respective countries.

Property was also bought on Highway 7. It was called The Madoc Campus, Heaven's Gate. It handled the Administration of BMS.

Dr. Barton travelled out West, teaching. She was invited to speak on radio stations, asking people to call in, if they wanted to, to tell their psychic stories and experiences; they did. The stories were compiled in a book entitled "Psychic Phenomena in Canada, later changed to Canada's Psi Century".

Soon a campus at Gravelbourg, Saskatchewan was bought. Growth was phenomenal.

While all this was going on, another property was bought. 1,500 acres in Coe Hill, Ontario. The Campus at Madoc was called Heaven's Gate, the property at Coe Hill was named "Heaven."

Our input was to leave a money-driven society and live as close to Nature and natural living as possible. Each campus had their own animals, vegetable gardens etc. At Nominigue and Coe Hill, we produced our own Maple Syrup.

We realized we were, on a higher level, being trained as E.T.s.

We were being trained as The 13th. Tribe Of Levi. The training was given for this moment in time, because of what was now happening globally on the planet, we were/are trained to help the people.

We were in training for over 10 years. Then came the time of testing, both of the composite group and individually.

Suffice to say, I then called the 10 year period I spent living in/at/on the different campuses that my burning tip of conscious awareness, (btca) had consciously experienced what I called the under-belly of God, or living though Genesis I, where I experienced going back in time and connecting to the original Adam and Eve mentioned in the bible - and called Genesis I.

We are now into Genesis II.

Dreams

- Said to Stephen Hawking in a dream that physicists are making physics too complicated; think in terms of t^3 not t^2 , i.e. put a spin on words.
- Had a dream that I looked up at the night time sky and saw that all the stars had changed to **XXX**.
- Asked a woman in a dream if she was an alien. She said yes. Asked her if she evolved having sex. She said yes and that it was exhausting;
- Saw people seated around numerous circular tables; around one table sat people whose sexuality was that of promiscuous virgins, they spoke doublespeak; around the top table were seated people who were sexually white, they understood the science of having sex. All the other tables were not worth sitting at.
- Had a dream that little birds were bringing messages to me as I stood looking out an open window on the top floor of the house on Young Street in Winnipeg; the grass around the house was long, green and wild looking – saw it as being the state of grass roots humanity in the next world.
- Dreamt that I climbed a tree in the woods to get away from a giant silvery coloured bull – the Bull of Heaven (from the epic of Gilgamesh).
- June 05, 2023 - Marriage straps a man to the menstrual cycles of the moon.
- Dec. 18, 2023 - Had a dream that the universe is made up of 137 megastructures and that scientists were unable to count the number of galaxies in each structure; all the megastructures were like living worm-shapes each distinct from one another; 137 = human body?.
- Dec. 21, 2023 - Had a dream that the early days of metaphysics are over. (first day of winter 2023)
- Feb. 21, 2024 - Had a dream that, as I was walking down a back lane, I saw groups of people sitting in one backyard after another lit up by a lot of flames; the people were made visible only because of the light of the flames.
- Feb. 24, 2024 - Had a dream that I was explaining that in this world we have an idea of one "God" but what we see is as a mishmash of the gods in the next world: Helios and Apollo, etc. The third world is as the world of the stars.
- Feb. 24, 2024 - Saw a tall Middle Eastern man ask two young East Indian men what sort of human beings do you think you are; the two East Indian men walked away not able to answer.
- April 09, 2024 - Had a dream that the world is going to become very bad yet very good as explained at the highest level.
- August 19, 2024 – Had a dream that I made a birthday card to myself that said "Horray" for having reduced all knowledge to the size of a birthday card comparatively speaking.

Dreams – cont'd

- Saw two girls on a bus bend over and stick their heads into their own rear ends till they disappeared altogether.
- Saw in a girl's asshole the light of the next world.
- August 20, 2024 – As I was sitting on the ground looking up at a blue sky, I realized that the Earth is weak and feeble but that that would soon change, and that man does not understand the universe at all.
- Oct. 07, 2024 – Had a dream that my book was finished and that it was perfect. It was printed on newsprint paper like the thin paper comics books are printed on. In the dream, I saw people ready to throw two shopping carts full of food into a very deep hole in the earth, but the book says it's the people, not the food that gets thrown into the bottomless pit.
- Nov. 30, 2024 – Had a dream that I told a group of people sitting around in a large sunlight room that it is time to teach metaphysics starting next year. Said to Leonard and Sheldon (two characters on "Big Bang Theory") that "anti-woke" is about arguing with everyone about everything little thing but that teaching metaphysics should start off by talking about the pyramid. Woke up with the idea that metaphysics is philosophy that gets out of itself. <https://www.cbsnews.com/video/uatx-college-free-speech-60-minutes-video-2024-11-24/>
- Dec. 01, 2024 – Explained $P^3 = a^3P$ and the geometry of the square shape (base of pyramid); $P^3 = t^3 =$ there is no space in space-time.
- Feb. 07, 2025 – Had a dream that I got my hands on an AI-device that could answer questions. It was shaped like a circle inscribed in a square. I showed it to a physicist saying I could answer the questions that AI couldn't. Asked another physicist if he knew that physics had reached a dead end.

- Feb. 23, 2025 – put thumbs up/out twice then down/in twice.

"Butt" = "universe", many "butts" = "multiverse"; we first learn to walk, we then learn to talk, "verse" = "talk", "multiverse" = all saying the same thing; there may be many universes but there is only one world; no news is good news and no shit is good shit.

Dreams – cont'd

- April. 21, 2025 – Had a dream that I swallowed up all of metaphysics. In my mouth it was like a curled-up snake-shape that shrank to such a small size, I couldn't tell that it was there anymore.
- April. 21, 2025 – Also had a dream that I was telling Dr. Barton that to build up is to become nothing. She laughed. When I told her that the answer to what have you done today is nothing, she laughed even harder.
- May 04, 2025 – Saw in a dream red apples come alive, got the idea that "life" = "apple" turned into "big apple" = knowledge with meaning; "death" = certainty turned into dead certainty (butt end); not all the apples I saw in the dream came alive; may the 4th be with you = Star Wars day.
- May 11, 2025 – Had a dream that I was walking on flowers; I couldn't see the ground; even when I stepped up onto a deck I couldn't see the deck or the step because of the flowers.
- June 12, 2025 – Had a dream that my book has a punchline and then in a later dream that night a giant white Bengal tiger hugged me; it turned into a giant grizzly bear indicating with its teeth that it wanted me to scratch its ears.
- from a dream June 24, 2025 – "Earth", "air", "fire", "water" = mediators, administrators, agitators, fornicators = special interest groups making up society as a 'hole'; "fire people" give others the "cold shoulder"; they have a tendency to "burn down" everything including anything of beauty; being both too "hot" and yet too "cold", their names are not written in the Book of Life and hence are already cast into the "lake of fire"; AI is like a "wind" that fans the "flames"; people whose names are written in the Book of Life are like "pets" with "pet names"; ruling over all is that which does not belong in the "bedroom", "politics".
- July 08, 2025 – Saw a vast vista from a high point, a large river stretched off into the distance.
- Sept. 2025 – Had a dream that I saw a giant book that had been written by one person and that that person was me. The closed book was about a foot thick.
- Sept. 27, 2025 – Had a dream that I was showing someone how many notebooks I've filled up doing the #1 lesson, there was about ten of them; I said I've filled a thousand pages all toward writing a 42-page book; in real life there's actually about twenty.
- Oct. 2025 – Had a dream that I said to someone work = the stirring of water; when I woke up, I had the thought that water stirred is has to do with sex. Have since realized that to work is to be on the clock.

Dreams – cont'd

-- Nov. 22, 2025 – Had a dream that I saw a spaceship with two letters "J" imprinted on it called "Jes", pronounced "G's" and another called "X-friends".

-- Jan. 07, 2026 – Had a dream that I saw a UFO in the sky with wings, like on a horse; told it repeatedly to stop and start and it did. Donna was with me in the dream. I said to her that I understand the "wings" (relativity is on both sides of the "light barrier"). A saucer-shaped ship flew up to it.

-- Jan. 20, 2026 – Last night in my dreams, some UFO guys asked me if I understood what they were saying, I said yes, you talk the people on earth. They were complaining about the taste of packaged food. Their conversation was very mundane. Closed captions appeared in the air above them like I was watching a movie. Later they asked me to hush up when I saw they were hiding. I think they're here on earth looking at how to spice up their love life. Just two guys with regular faces. Perfectly normal like maybe they were from earth come back from the future. I tried to shine a light in their eyes but it just annoyed them. Also had a dream earlier that I said to some lady that I had flipped the middle finger to the seven churches.

-- Jan. 26, 2026 – Said to someone in a dream that explaining science in terms of sex is the quickest way to answer the question what is metaphysics.

-- Jan. (?), 2026 – Had a dream that scientists were annoyed that an engineer had crossed the light barrier.

-- Feb. 05, 2026 – Had a dream that I saved another planet by releasing toluene (T⁸) from snow to defrost people encased in a coating of ice. A guy who opposed me tried to run me over with his car but later apologized saying I was smart enough to use the left side of my brain. I said you've had your life saved so many times you should be given a job in the government. I saw a slight nod.

-- March 19, 2026 – Saw clearly in a dream two men, one behind me and one in front; the one in front smiled at me a long time as if to give me time to study his face, he said that his name was Daniel, that my name was Victor and that the man behind me was Ellison; I shook his hand and said congratulations are you the Daniel in the Bible, he said no; at the age of 79½, I don't remember all dreams but this was one I did not forget.

Visions (in the 1970's)

-- Standing outside looking in through a window of an old Nunnery the BMS used as a meeting place in Qu'Appelle Valley Saskatchewan in 1973, I saw a puzzled apelike look on the faces of BMS students sitting inside in class; Dr. Barton was with me looking in the window also.

-- While standing on George Island in Lake Winnipeg, Manitoba I looked out onto the lake and saw a primordial roughness about the waves that made me wonder if water billions of years ago was different.

-- While driving down a street in Winnipeg, as I looked up I happened to notice that the sky looked much bluer than usual like the blueness of a sky higher up.

-- One day at work at MTS I saw, out the window, a gull go by; had a sense of relating to the meaning of taking flight.

Meaning of vision at Nunnery: evolution is happening; becoming a student of metaphysics is like being forced out of society - the opposite of being made to go to a residential school; the I*AM was not a cult because the end of the world was not taken to have a literal meaning.

"Stonehenge" = all dreams are "sex" dreams.

John. 12:25 - He that loveth his life shall lose it; and he that hateth his life in this world shall keep it unto life eternal.

reality = dying to live, actuality = living to die; 21 = the coming-of-age age.

My Life

I became involved in the BMS - Bartonian Metaphysical Society in 1971; in 1974, I discovered a progression that explains where 666 comes from; in 1975, I quit my job at MTS - Manitoba Telephone System after having worked as an engineer exactly five years and moved into the house used by the I*AM as its headquarters at 257½ Young St. but my stay there lasted only a few months, so, in 1976, I moved to a boarding house at 144 Spence St. and got a part-time job that year as a night watchman working on weekends only so that I would have more time to write a book that makes sense of relativity.

All of the original members who started up metaphysics in Winnipeg in the 1970's really struggled, we didn't even know what it was; in the 1980's, the I*AM folded; in 1998, on the newly emerging Internet, I set up a website at shortsolution.com named after a solution to Rubik's cube I had discovered; my badge number working part-time for Sentinel Security at a photo developing company called Lifetouch for 29 years was 147 = the height of pyramid in meters; $147/7 = 21$ = my membership number in the I*AM; Dr. Barton did once say that having a job should be limited to working on weekends only; she and I put in over 100 years of combined effort; metaphysics is science made personal, the language used is explicit, everybody knows what "XXX" means; a watchman keeps an eye on the times, a night watchman keeps an eye on the "darkness" of the times; Moses went from high status to low status in his life also.

Many years later, with the I*AM long gone, I say to the lady who lives next door to me that I paint pictures with words and that she is my model; we go on walks to the park with her dog; I got an odd look from her one day when I told her that I had registered my penis with the government until I explained that I had applied for the trademark "Three Stars Changed"; we have a I-love-you and me-you-too true friendship; she was brought up an Anglican but became a Catholic; the poetry I have written, inspired by her, redeems mankind (bad words made good). She died Dec. 07, 2026.

When I was four years old, I used to go around saying "I am God"; my parents said don't say that.

-- "Little Tarzan" Dr. Barton said of this picture.

My birthday, Sept. 08, is the birth day of a know-it-all according to "The Element Encyclopedia of Birthdays" by Theresa Cheung; know it all = "know what all is", 666/XXX = "horns" of a "bull"; Mother Mary's birthday is celebrated on September 08.

***15 Cunnington Ave in 2023
Childhood Home 1947-1967***

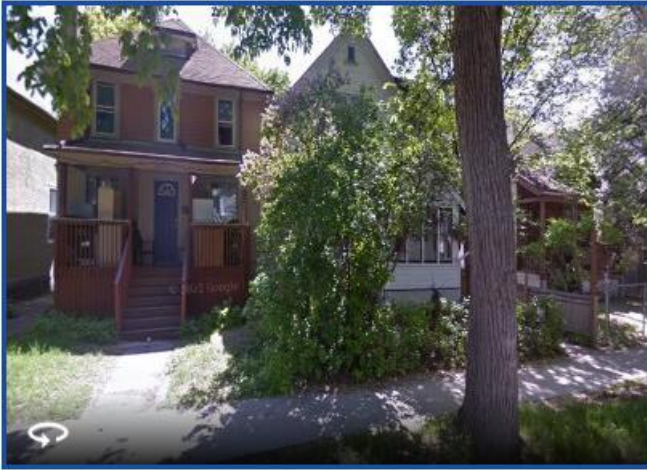

-- For the first twenty-one years of my life, I lived at 15 Cunnington Ave in Winnipeg, Manitoba, Canada; the street is named after the father of archaeological excavation, William Cunnington (1754–1810). <https://en.wikipedia.org/wiki/Archaeology>.

My Mother used to say: "Do good in school or you'll end up digging a ditch". It turns out I am digging a "ditch", man is moving from the "rut" that is as the Great Rift Valley to the "rut" that is as the black hole at the centre of the Milky Way galaxy. She was born April 09, 1920, Good Friday on the Greek Orthodox calendar; I was born in 1946 just before my parents moved from Garlies St. to 15 Cunnington Ave. in Winnipeg.

Not able to be shown here is a "snapshot" of an earthquake cracking the sea floor under an ocean of testosterone and estrogen spawning a tsunami of dopamine and endorphins; the easy-to-look-at nude body is divine:

Pss. 23:4 - thy rod and thy staff they comfort me.

Filled with lust, the turned-on brain becomes as a "brainwashed" sex organ; "rod"/"staff" = "hardener"/"stiffener"; "God" is found in "heaven" "below".

With Donna – 1996-2010 at 314 Madison St.

Our relationship was based on "I'd rather get rich than get married";
314 Madison = π street.

Matt. 22:8 - Then saith he to his servants, The wedding is ready, but they which were bidden were not worthy.

Matt. 22:9 - Go ye therefore into the highways, and as many as ye shall find, bid to the marriage.

Matt. 22:10 - So those servants went out into the highways, and gathered together all as many as they found, both bad and good: and the wedding was furnished with guests.

"Wedding" = marriage of old and new ideas; Donna's family provided the "guests".

- The "defeating" of "evil" is just the "defeating" of "good" acting under false pretenses; "burning mountain" = mountain of burning faith.

Brief Answers to the Big Questions – the final book from Stephen Hawking.

<https://pages.hachette.co.uk/stephen-hawking>

- 1. Is there a God? – Man is not an "ape" therefore "God" "exists" = meaning of "I think therefore I am".
- 2. How did it all begin? – Time "ends" when "dating" "begins".
- 3. What is inside a black hole? – "Spaghettification" = the bigger the "big I AM" the littler the little "I am".
- 4. Can we predict the future? – First step in evolution = make the "dumb ones" smart; next step in evolution = make the "smart ones" smarter.
- 5. Is time travel possible? – Yesterday's walking erect = today's walking "erect"; what happened 6 million years ago is happening again today.
- 6. Will we survive on earth? – A zero date in evolution has been reached; "except those days should be shortened, there should no flesh be saved: (Matt. 24:22).
- 7. Is there other intelligent life in the universe? – Where there's water, there's life; where there's the "water of life", there's intelligent life. "H₂O" = "water of life" = women bonded with men in pairs; E/L = "Eve"/ "Lilith" = "hardener"/ "stiffener".
- 8. Should we colonize space? – Colonizing space should start with Earth. It's not about leaving; it's about "arriving"; Earth as a "rock" = planet; Earth is a "stone" = "promised land".
- 9. Will artificial intelligence outsmart us? – 666/XXX = no AI = autonomous thinking.

Origins

an explanatory dissertation by Robert Hoffmann of the art work of Wade Jones in his show entitled:

Presences and Realities

starting November 2, 1979

Origins			
Years Ago	Time-Frame	Significant Event	Origin
6,000,000,000	Geological	Formation of solar system	Existence
600,000,000		Fossil life begins	
60,000,000		Extinction of dinosaurs	
6,000,000	Archeological	First prehistoric man	I exist / I am
600,000		Earliest use of fire	
60,000		Earliest use of tools	
6,000	Historical	Adam and Eve	Identity

The above progression is in exact agreement with scientific findings. Earliest use of fire and tools refers to conscious use by the homo line of prehistoric man as it evolved into *homo sapiens* followed by *homo sapiens sapiens* (Cro-Magnon man) on its way to becoming modern man at the time of Adam and Eve. It is likely, by archeological estimates, that the wheel was invented at the time of Adam and Eve and is possibly the symbol of identity. The geological time-frame pertains to the metamorphosis of rock – the symbol of existence.

Artistic Intent

With this showing, Wade is attempting to measure the impact on the viewer of not just his latest works but of art in general on the world today. It is for this reason that his self-portrait in green is so intense, as if to demand a reaction from the observer. With this as his intent, he hopes to investigate what is being demanded of art in turn by the artist.

This approach differs from that of his previous showing in that the focus of attention was on himself. In that show, called "Origins", which featured the Adam and Eve, he was asking the question "Who am I?". Now, in confronting the observer, he is asking the question not just as it concerns himself, but as it relates to the whole.

In effect, he is going further back into the past than the time of Adam and Eve to take an even deeper look into his origins. In fact, as it will be shown, he is going back to the time of the formation of the solar system where the sun and the earth may be considered as one's parents in terms of existence. Beyond that time, in terms of one's origins, there was no existence.

Until a man-like creature was endowed with what Wade calls the "I" to become the first prehistoric man, there was only existence. In adding the "I" to existence to obtain "I exist" (one's presence in reality) or "I am" (reality of one's presence), another origin was established according to the following set-up:

Although Cro-Magnon man had only the "I" in terms of self-awareness, he was surely creative according to recent discoveries. But it was not until the time of Adam and Eve that consciousness increased to the point where man would identify with what he had created in answering the question "Who am I?". Yet he would not be concerned with the import of his creation except in terms of the "I exist", as opposed to balancing it with the "I am" as outlined below:

Level	I am
realities of living (physics)	realities of life (metaphysics)

The cause of this imbalance is that man, in disregarding the furthest origins of the past, as intimated by Wade, is ignoring the furthest considerations of the future. Man must look beyond the narrow time-frame with which he has identified himself and, in seeing the interests of a larger self, be concerned for the world as a whole.

To achieve this aim through art, Wade is attempting to exhaust the capacity of the observer to observe. In reaction, the observer is looking for more meaning in art so that it can be seen not just with the eyes but with the understanding. From a world view, this implies that the meaning of modern art has not met the demands of the observer except to serve as a transition from the classical art of the past to the art of the future. Whereas the art of the past dealt with physical principles, the art of the future will deal with metaphysical principles. In bringing this about, the meaning of Wade's art is that art has meaning.

Earliest record of progression discovered in 1974

"Calling" vs "Mission"

Time "reversed" looks into the past; evolution "reversed" looks into the future:

Matt. 22:14 - For many are called, but few are chosen.

"I exist/ I am" = "calling", "I think therefore I am" = "mission"; "calling" = across the board, "mission" = personal; society is divided into four main special interest groups:

- "earth" – mediators,
- "air" – administrators,
- "fire" – agitators,
- "water" – fornicators;

Quintessence = fifth essence = essence of essence = initiator/
instigator = calling/ mission

= anus/ asshole = before/ beyond; "diminution" = divine.

work = stay on the clock, getting ideas = sex on the clock is what
"marriage" means.

all "assholes" are equal, "anus" = "equal sign", "asshole" = "proof", no
one can argue with an "asshole".

What "Spirit" Says to the Seven "Churches"

In Revelations, all "Churches" are rebuked except for "Church" #2, Smyrna, and "Church" #6, Philadelphia:

Rev. 2:4 - "Church" #1: Philosophy = Ephesus - Nevertheless I have somewhat against thee, because thou hast left thy first love.

Rev. 2:8-11 - "Church" #2: Science = Smyrna; OK = no rebuke.

Rev. 2:14 - "Church" #3: Psychology = Pergamos - But I have a few things against thee,

Rev. 2:20 - "Church" #4: Religion = Thyatira - Notwithstanding I have a few things against thee,

Rev. 3:2 - "Church" #5: Enlightenment (eclectic) = Sardis for I have not found thy works perfect before God.

Rev. 3:7-13 - "Church" #6: Illumination (psychic) = Philadelphia; OK = no rebuke.

Rev. 3:18 - "Church" #7: Revelation (mystic) = Laodicea - I counsel thee to buy of me gold tried in the fire,

Rev. 17:11 - "Church" #8: Metaphysics - And the beast that was, and is not, even he is the eighth, and is of the seven, and goeth into perdition.

To deepen is to darken; "asshat" = hat split in two:

"Asshat"

P vs NP problem = polynomial vs no polynomial = does not compute:

1Cor. 14:4 - He that speaketh in an unknown tongue edifieth himself;
but he that prophesieth edifieth the church.

Metaphysics = ontology + cosmology; ontology = nature of being and reality, cosmology = structure and order of the universe; Newton stood on the "shoulders" of "giants"; only divinity can fulfill prophecy.

13 Challenging Questions Atheists Often Ask Believers

- Why are there so many religions? Belief is divisive, dare to believe is not.
- Where did "God" come from? I exist/ I am = existence made personal; "eye" (I) in pyramid is you (U); I = I AM when U = "bucket".
- Why is there suffering? Utopia = happy; euphoria = real happy; abomination of desolation = happy but not real happy; "desolation" = no answers to big questions; transgression of desolation = good which is not good enough.
- How do you know God exists? Prophecy fulfilled.
- How can the Bible be trusted? Prophecy fulfilled.
- Which religion is right? All of religion is just one "church".
- What happens after death? This world = one clock = one "God"; next world = many "clocks" = pantheon of the "gods" (Zeus, Apollo, etc.); "circle of life" = walking "erect" on a "flat Earth" back to the time of the pagans.
- Why do bad things happen to good people? A "crappy" ending is as a happy ending = the "Rapture".
- How can God allow hell? "Heaven" and "hell" exist only if kept separate.
- Why doesn't God show himself? "God" is "invisible" for a reason and that reason is nudity.
- How do you explain evolution? Next step in evolution = walking "erect".
- Why does God need worship? Worship = watch the clock; follow = tell the time.
- How can you believe without proof? Righteous = faithful despite **XXX** and true because of **XXX**.

The consummation is not about answering the big questions, putting an end to the asking of them is.

Space is not filled with an air-like stream of particles pushing on the Earth, as was thought in the days of Newton; it is not filled with a luminiferous aether acting as a medium needed to propagate light, as was thought in the days of Einstein; "dark matter" is invisible, undetectable and doesn't react with anything; looking for it is like looking for "God".

Before Galileo, "God" was "up there"; meta = up; "meta"-physics makes sense of the Bible without unwisely dismissing it.

Believing blindly in not believing in the Bible is still blindness; religion is always waiting.

What is Calculus? – from a lecture given in engineering

In arithmetic the question is given; in algebra the answer is given; in calculus neither is given. As an example:

$$y = 3x^2 + 2x + 1$$

In arithmetic x is given; in algebra y is given; in calculus neither is given. In its most general form, the original equation says:

$$(\quad) = 3(\quad)^2 + 2(\quad) + 1$$

To x add Δx , to y add Δy . The equation becomes:

$$(y + \Delta y) = 3(x + \Delta x)^2 + 2(x + \Delta x) + 1$$

$$\text{i.e. } (y + \Delta y) = 3(x^2 + 2x\Delta x + \Delta x^2) + 2(x + \Delta x) + 1$$

$$[y] + \Delta y = [3x^2] + 6x\Delta x + 3\Delta x^2 + [2x] + 2\Delta x + [1]$$

Quantities in []'s cancel out according to the original equality. What remains is:

$$\Delta y = 6x\Delta x + 3\Delta x^2 + 2\Delta x$$

Divide both sides by Δx :

$$\frac{\Delta y}{\Delta x} = 6x + 3\Delta x + 2$$

In the "limit" as $\Delta x \rightarrow 0$:

$$\frac{\Delta y}{\Delta x} = 6x + 2 \text{ or } \frac{dy}{dx} = 6x + 2$$

dy/dx = derivative of $y = f(x)$ = slope of curve $f(x)$ at point (P : x, y). The formula for the definition of the derivative is:

$$f'(x) = \lim_{\Delta x \rightarrow 0} \frac{f(x) - f(x + \Delta x)}{\Delta x}$$

Starting with $y = f(x)$, plug in $\langle y + \Delta y \rangle$ for $\langle y \rangle$ and $\langle x + \Delta x \rangle$ for $\langle x \rangle$, subtract the old equation from the new and then divide both sides by Δx . Δx cannot be equal to 0 because then Δy would be divided by zero. Δx is called an infinitesimal; $1/0$ = singularity = black hole.

3×3×3 Puzzle

A Short Solution

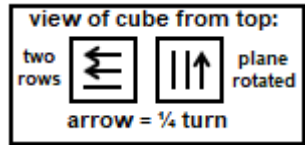

No knowledge of notation required

The colour of each face of the cube is determined by the colour of the axle positions. Axle positions rotate but otherwise do not move. Let the colour of any axle position be the colour of the top surface.

Top Level

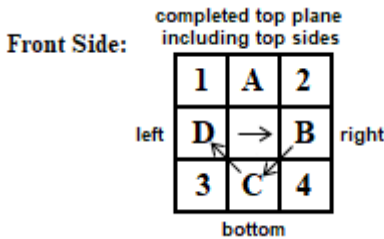

First move into place the top level mid-positions. It may at times be necessary to rotate the top plane a $\frac{1}{4}$ turn horizontally and then back again with a new top level mid-position having been brought a $\frac{1}{4}$ way up into place. Top level mid-positions must match in colour two separate axle positions.

Top level corner positions are moved up into place a step at a time on that side of the cube where the top level is to be completed with two rows of the upper surface turned away each time to the side opposite the plane being rotated. Top level corner positions must match in colour three separate axle positions.

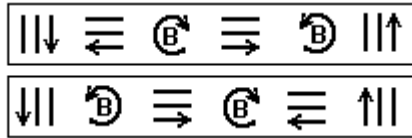

Middle Level

Hold the cube vertically. Rotate the bottom plane so that the front colour of

'C' matches the colour of the front face and bottom colour of 'C' matches colour of right side. Once 'C' is ready to be moved up, direct front face of

cube downward and carry out the moves of arrow diagrams 1&2.

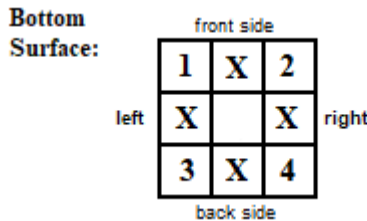

The arrows indicate which plane of the cube is to be turned a ¼ turn. 'B' with an arrow around it = turn the back plane of the cube ¼ turn.

Once 'C' is moved up, call it 'D'. Bottom surface of next 'C' should match colour of left side. Direct front face of cube downward, carry out the moves of arrow diagrams 1&2 again to move 'C' up. 'D' will be moved into its final place.

Do the same for 'C' and 'D' on the other side of the cube. It is often necessary to first move 'B' down. To turn 'C' on edge if necessary, hold cube vertically, face right side, carry out the moves of arrow diagram #2 only (position of 'C' is rotated a ¼ turn in plane of bottom level).

Bottom Surface

Step 1: Obtain a "+" Pattern on Bottom Surface: Carry out the moves of arrow diagram #2 only while holding the cube vertically to turn on edge if

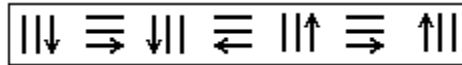

necessary any 'D' position (left side bottom) so that it is set upright in the plane of the bottom level. Do the same for more than one 'D' if necessary to obtain a "+" pattern on the bottom surface.

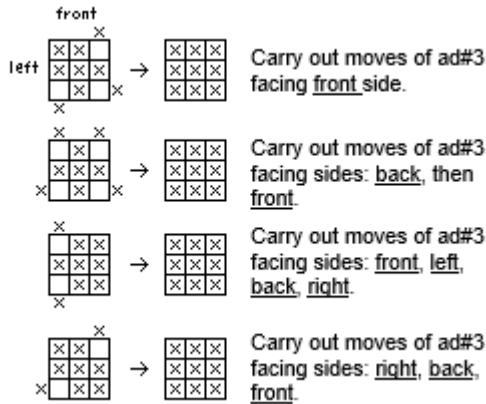

Step 2: Make Entire Bottom Surface All One Colour:

Hold cube vertically and carry out the moves of arrow diagram #3 once

facing each of the sides indicated.

× = bottom colour. Hold cube vertically.

Not all possible patterns are shown. To obtain a pattern shown above, carry out the moves of arrow diagram #3 repeatedly facing any side.

Bottom Level

Once the bottom surface has become all one colour, rotate the bottom plane so that only the back right corner piece [#4] is positioned correctly. Then holding the cube vertically carry out the moves of arrow diagram #3 once while facing each of the sides: front, left, back, front in order to cause the right front corner position [#2] to move left. The other corner positions will move as required. Initially make sure that only one corner position [#4] is situated in its correct place. If this is not possible, then cause the #2 corner position on any side of the cube to move left in the manner described.

Letter positions can be made to displace one another as before by carrying out the moves of arrow diagrams 1&2 while holding the cube vertically to arrive at the final solution. A cube that has been taken apart cannot be solved if one mid-component or corner component has been put back in oriented the wrong way.

13. What happened in the Garden of Eden? – Clueless learning.
14. What comes after relativity? – time runs backwards, "light barrier" is crossed; yearly zodiac \rightarrow great year cycle = the "direction" of time reversed.
15. Why did the "chicken" cross the road? – To take the "bus" going the other "way"; "dragon"/ "I AM" "defeated" = big chicken \rightarrow "big cock".
16. Which came first, the chicken or the egg? -- the test of a "chicken" is the laying of an "egg", (if the egg came first then what is in the egg?).
17. What is the sound of one hand clapping? – a loud silence.
18. What is life? – Life = breath(?); look/see = see for yourself = take life seriously.

No More War

Physics, politics, AI = "tools":

- physics = "rock"/"stone"
- politics = "spear"/"club"
- AI = "war"/"peace"

"Spear" = "rock" on end of stick; "club" = "stone" on end of stick;
"spear"/ "club" used as weapons = science made personal:

War has ended in principle if not in practise; I*AM = Institute of Anger Management:

Isa. 2:4 - and they shall beat their swords into plowshares, and their spears into pruninghooks: nation shall not lift up sword against nation, neither shall they learn war any more.

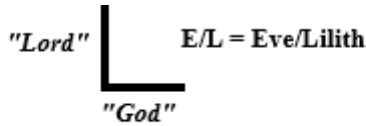

Relativity on the other side of the "light barrier" needs to be recognized as a "force" as fearful as "the bomb"; AI = "war"/ "peace" = "war" of words.

Politics divides people, also, it's territorial.

In the "Promised Land", there are no "sticks" and "stones", name-calling is a boon, not a bust.

A "Brain Child" is Born

The perpendicular sides of a right-angled triangle are in the shape of an "L":

"EL" = erect/long lasting = "Lord"/"God"

"E/L" = "Eve"/ "Lilith" = everlasting/ long lasting = "Lord"/"God":

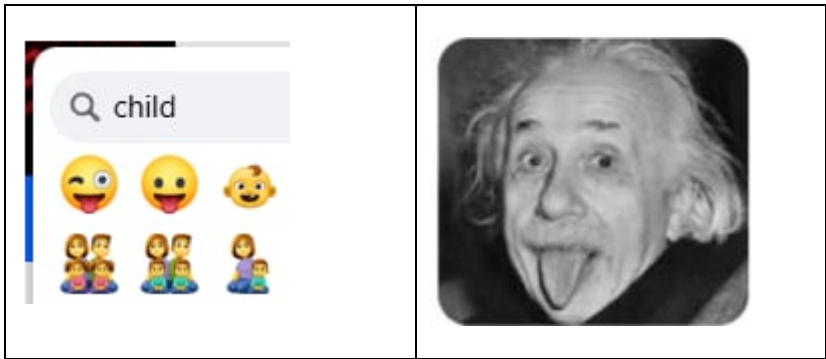

"DEUS"/ "HELIOS" = "E/L" = "Lord/God"

Big P/P = "Lord/God" seen

E/L gets the girls; "big P/P" has sex

Balling walls becomes routine.

A dog's behaviour is conditioned behaviour, "dog" spelled backward = "God" on Earth; astral projection = raise your spirits; if "God" has a "son" then why can't He have a "Father":

👤 = "face" of "God" = a "brain child" is born; before science there were gods for everything, now there are equations for everything; AI says something old, not something new.

"evil" spelled backwards = "live";

Further Notes

A pyramid viewed from above can be described as four corners of a square joined by diagonal lines in the shape of an "X":

top of pyramid = "square one"

Brain in pants/ finger in butt = "fucking/ asshole"; "X" = "having come from the stars"; "divinity" has three *i*'s:

i-1 – $12^2 = 144$ = "eye" in pyramid - close, personal, familiar, accessible / mind, hand, sex organ, anus; 'X' = fucking asshole.

i-2 – $21^2 = 441$ = base of capstone - voyeur, pornographer, pervert, sinner / weirdo, psycho, sicko; "eye" in pyramid = Stonehenge/ hanging tongue; seven "seals" opened.

i-3 – 441^2 = base of pyramid - philosophy, science, psychology, religion / enlightenment, illumination, revelation, metaphysics; seven "churches" + rock bottom.

When the "sun" is blocked, the "stars" come out, "stars" on the same "boat" move at the same "speed"; "poo-poo" = nay say, anuses = "staves":

Rev. 12:4 - And his tail drew the third part of the stars of heaven, and did cast them to the earth:

One third of the number of earth-like planets in the Milky Way galaxy could correspond to the entire population of the Earth, this is to say that all of the "churches" of Earth would be impacted by a "shitstorm" of controversy Carl Jung saw in a vision.

Pyramid = time made personal; "eye" in pyramid = pyramid made personal; "I exist" = existence made personal; an illiterate person signs with an "X", "dotted line" = "Pearly Gates"; go "buy" the book puts "u" in the "middle; the "eye" (I) in the pyramid is you (U).

In Egypt, a god-like dung beetle rolls the sun across the sky:

- "asshole" = anus made personal;
- "fucking asshole" = asshole made personal;
- pyramid = time made personal;
- "eye" in pyramid = pyramid made personal;
- "I exist" = existence made personal;
- free will = freedom made personal;
- "**HELIOS**" = "God" made personal;
- "**DE/US**" = "**HELIOS**" made personal;
- sex is love made personal;
- XXX is 666 made personal;
- Metaphysics = physics made personal.

The Earth moves not the sun = "fucking assholes" on a ball of dung; "dark matter" = "poop"; gravitational lensing = "peephole"; collisions at Cern = cosmic orgasms; "Big Bang" is science twisted.

The "eye" in the pyramid puts a "spin" on all that has happened, look = think, look back = rethink; history rewritten sees; rewriting history is how it sees; rewritten history is what it sees

Sex organ/ mind = brain in pants; hand/ anus = finger in butt; the "eye" in the pyramid sees itself as "god made personal" on Earth/

Gen. 1:28 - and have dominion over ... every living thing that moveth upon the earth.

"**XXX**" is "666" made personal; walking "erect" has "dominion" over "walking erect".

Rev. 3:16 - So then because thou art lukewarm, and neither cold nor hot, I will spue thee out of my mouth.

Not doing metaphysics = "Satanism"; doing metaphysics = "sorcery"; "spue thee out of my mouth" = you can't win with the critics; truth/ truth² = sunlight/ starlight = yellow/ white = urine/ semen; Earth = a world of people "up in arms"; on a treasure map, "**X**" marks the "spot"; time appointed is as a machine.

Sayings about dung from the Bible:

-- Job.20:7 - Yet he shall perish for ever like his own dung: they which have seen him shall say, Where is he?

-- 1Sam.2:8 - He raiseth up the poor out of the dust, and lifteth up the beggar from the dunghill, to set them among princes, and to make them inherit the throne of glory: for the pillars of the earth are the LORD's, and he hath set the world upon them.

-- Pss.113:7 - He raiseth up the poor out of the dust, and lifteth the needy out of the dunghill;

-- Jer.16:4 - They shall die of grievous deaths; they shall not be lamented; neither shall they be buried; but they shall be as dung upon the face of the earth: and they shall be consumed by the sword, and by famine; and their carcases shall be meat for the fowls of heaven, and for the beasts of the earth.

-- Jer.25:33 - And the slain of the LORD shall be at that day from one end of the earth even unto the other end of the earth: they shall not be lamented, neither gathered, nor buried; they shall be dung upon the ground.

-- Lam.4:5 - They that did feed delicately are desolate in the streets: they that were brought up in scarlet embrace dunghills.

-- Dan.2:5 - The king answered and said to the Chaldeans, The thing is gone from me: if ye will not make known unto me the dream, with the interpretation thereof, ye shall be cut in pieces, and your houses shall be made a dunghill.

-- 4Ezra.16:23 - And the dead shall be cast out as dung, and there shall be no man to comfort them: for the earth shall be wasted, and the cities shall be cast down.

-- Sir.22:2 - A slothful man is compared to the filth of a dunghill: every man that takes it up will shake his hand.

-- 1Mac.2:62 - Fear not then the words of a sinful man: for his glory shall be dung and worms.

-- Phil.3:8 - Yea doubtless, and I count all things but loss for the excellency of the knowledge of Christ Jesus my Lord: for whom I have suffered the loss of all things, and do count them but dung, that I may win Christ,

What's practical about metaphysics? Ans. The world becomes a "better" world in a "worse" way; an "asshole" is a "cut" above the rest.

Once evolution is reversed, it's possible that inflation will be reversed; also, people won't want to "hoard" anymore.

Further Notes – cont'd

-- Cosmic cube talk makes the world "better"; pyramid talk makes the world "worse" but in a "better" way.

-- "Moon split in two" causes three stars to change; this proves that men and women are equal and shows the manner in which they are equal;

-- The world of physics is like the "shadow" of the world of metaphysics.

The speed of light is a constant; light is "stationary", the speed of the stars is as the speed of light made personal:

*Improve sex
Not love
Love is always good
Good sex
Is love made personal
When it's understood.*

Stars in the sky = light which is not moving; "stars" on Earth = "light" which is moving; progress is made when "light" is moving, "stars" on Earth = "fucking assholes"; poetry in motion = "light" made personal = a hot topic of discussion:

*caption: salty talk
Oh my God of Boy Meets Girl*

Spine of book 666/XXX – Walking "Erect" = "backbone" of society; 666/XXX = the "devil" talking; Ph. D. = largest sized square hat;

the next book puts the "God" into sex; work at not working = work at screwing around (a woman's work is never done); OMG of BMG = salty talk; there's more to sex than meets the eye; "marriage" is made in "heaven".

Oh My God of Boy Meets Girl*
